Staff Presisto- Presented staff report.

Member Crist- How many times can you split an acre off of this?

Staff Charles- This is a non-conforming lot. It is zoned commercial, so it is a little bit different. The county allows a certain number. For ag land to be split off we require that you do a preliminary plat to lay out the whole thing, but I don't believe we have anything for commercial properties.

Member Crist- How does the flood plain play into this?

Staff Charles- This property is not in the flood plain. I don't remember the date but when Darryl Ball did the mobile home park that he put out there, we showed that he was in the flood plain. However, he hired someone to show that his property is not in the floodplain. I think that was in 2007 or 2006.

MEMORANDUM

TO: County Commission
THRU: Robert Reece
FROM: Skylar Swords
DATE: April 1, 2024
RE: Ambulance Remount

DISCUSSION:

In our continued desire to standardize the EMS fleet and keep required assets in good working order, we are seeking to remount an existing gas powered F-450 to a diesel F-550. This requested ambulance could be delivered to EMS in the 4th quarter of 2024.

BACKGROUND:

Currently, EMS has a fleet of 6 ambulances (3 primary and 3 backup). Only 2 of them are diesel at this time. 2 units have greater than 100,000 miles and one unit has 85,000 miles. Half of the fleet are on van chassis (which do not have 4WD capability). Repair costs for units does increase significantly once ambulances go over 100,000 miles.

Remounting an ambulance versus a new build can save approximately 30K-50K. Additionally, the ambulance we are looking to remount has a relatively new cot and cot loading system that can be transferred over to the new unit, saving approx. \$45K.

As part of the standardization of the fleet, there will be no bids as remounts are only done by Osage for Osage products, therefore this is a single source exception to the purchasing policy.

ALTERNATIVES:

1. Approve purchase of remount at a cost of \$179,677 to be paid from EMS Operating Budget and authorize EMS Director Skylar Swords to sign the purchase agreement.
2. Decline purchase. Next available delivery date of an ambulance would be in 2nd quarter of 2027. Ambulance box production costs are expected to increase 8% to 9% per year. Chassis purchase cost is expected to increase 28% by 2027.

RECOMMENDATION:

Option 1

FISCAL And/Or POLICY IMPACT:

Quoted price of remount is \$179,677.00. Current equipment reserve line item for EMS is at \$781,608.
